Core Skills

PHP (Laravel, Symfony) · Golang · Node.js (JavaScript/TypeScript, Express, Nest) · AWS (Lambda, S3, RDS, ECS) · Docker · Kubernetes · Terraform · Jenkins · CI/CD · DDD · CQRS · Event Sourcing · Microservices Architecture · MySQL · PostgreSQL · MongoDB · Redis · Elasticsearch · Bash Scripting · Python · Rust · Large Language Models (LLMs) · LangChain · AI-Assisted Engineering · Agentic Workflows

PROFESSIONAL SUMMARY

Senior Software Engineer with **16+ years of experience** building and scaling backend systems.

Expert in **PHP (Laravel, Symfony), Go, Node.js, Python** and **cloud-native architectures (AWS, Docker, Kubernetes)**.

Proven track record in **DDD, CQRS, microservices and monolithic design**, with a strong focus on **writing clean, maintainable code** and mentoring teams to improve quality and delivery.

Hands-on at heart: clean architecture, AI-assisted software engineering, and delivering real impact.

WORK EXPERIENCE

Senior Software Engineer / Software Architect - Kintai

Jan 2026 - Present

- Delivered project assessments and architectural proposals for stable deployment environments, replacing the single staging setup with dedicated staging and production infrastructures.
- Designed domain separation strategy with per-domain database isolation and microservices to decouple the central monolithic API.
- Built a fully decoupled provider invoice publishing service, introducing invoice persistence and domain modeling for future financial domain extraction.
- Built and maintained an AI-powered engineering handbook system used daily to accelerate development, architecture design, troubleshooting and documentation workflows reducing deployment time by 25%.
- Stack: AWS, DDD, CQRS, Hexagonal, Microservices, Event-Driven...

Senior Software Engineer - Bolttech

June 2022 - Jan 2026

- Designed and shipped more than 10 AWS-based microservices (ECS/Lambda) with CI/CD pipelines (Jenkins), reducing release cycles.
- Applied DDD + CQRS + event sourcing in payment service, getting tracking and improving that to check the history. Error log with Elasticsearch.
- Mentored devs and defining testing & observability standards, achieving 85% test coverage and reducing production bugs.
- Stack: PHP (Laravel/Symfony), Go, Node.js, Python, AWS, Docker, Jenkins, Redis, MySQL/Postgres, Elasticsearch.

Senior Software Engineer - The Mind Hub Company

Apr 2021 - Jun 2022

- Built and maintained monolith + microservices using PHP + AWS.
- Developed authentication service using DDD principles
- Stack: PHP, Javascript, Node, AWS (Lambda), Redis, RabbitMQ, Jenkins.

Senior Software Engineer - Eventscase

Jan 2020 - Mar 2021

- Develop new features into multi product environment.
- Led the decomposition of a monolithic application into domain-focused services
- Stack: PHP, AWS (Lambda), Redis, Javascript, Jenkins.

Senior Software Engineer - Pavagua

Jul 2019 - Dec 2019

- Lead full projects and features.
- Led platform modernization and monolith decomposition
- Stack: PHP, Flutter, Javascript.

Lead Software Engineer - Witrac

Apr 2019 - Jun 2019

- Led development with Laravel, DDD, and unit testing (PHPUnit).
- Stack: PHP (Laravel), Javascript, Python, DDD, PHPUnit (testing), AWS, Redis, MySQL, Postgres, SQL Server, Mongo

Senior Software Engineer - Microvalencia Soluciones Informáticas

Jun 2018 - Apr 2019

- Built **ERP** with **PHP, TypeScript, C#**.

Founder - Freshware

Jan 2012 - Dec 2018

- Founded and led company delivering in **multiple technologies**.
- Mentored developers and designed **multi-tenant scalable platforms**.
- Stack: PHP (Laravel & Symfony), Python, Javascript / Typescript (jQuery) , SQL, Liquid, Flutter, Cordova, Swift, HTML5, CSS, Bootstrap, Vue,
- Managing teams and projects

Software Engineer - Marina d'Or

Apr 2010 - Oct 2011

- Stack: PHP - ActionScript (Flash) - MySQL - CSS - HTML

Finishing studies and no tech jobs

Jun 2010 - 2010 Apr

Scholarship Software Engineer - Iberdrola

Jan 2010 - 2010 Jun

- Stack: C - C++

Focus studies and no tech jobs

Oct 2007 - 2010 Jan

Software Engineer - Computalia Internet

Aug 2006 - Oct 2007

- Stack: .NET - ActionScript (Flash) - MySQL - CSS - HTML

EDUCATION

Universidad Jaume I 2002 - 2010

Engineering (Engineer) Computer Science (2002-2010)

Post-graduate VisualBasic .Net (2010)

SOFT SKILLS

- **Leadership** & team **mentoring**
- **Problem-solving** & **decision-making** under pressure
- **Clear** and **effective communication** (technical & non-technical)
- **Adaptability to new technologies** and environments
- **Strategic thinking** with business-oriented approach

LANGUAGES

- **English**, spoken and written, professional level.
- **Spanish and Valencian/Catalonian**, spoken and written, native level.
